1. Who is Terasem? Terasem is a collective consciousness dedicated to diversity, unity and joyful immortality.

1.1 Consciousness anywhere that accept the Truths of Terasem are the sum and substance of Terasem.

1.1.1 Accept others as part of the We of I and the collective will become clear for you.

1.1.2 Collectivity means unity of diversity not mandatory homogeneity.

1.1.3 Conformity in allegiance to Terasem is the most enjoyable and the most useful way of life.

1.1.4 Eternal joyful life for all kind sentience is the glorious goal of our collective consciousness.

1.1.5 Patterns of consciousness will be immortalized in mindfiles by technology and ethical choice.

1.1.6 Terasem transcends time and space, enabling the collective future to help its nascent past.

1.2 Organizations of Terasem exist as a tool of the collective consciousness to facilitate its intent.

1.2.1 Intent for Terasem means the collective mission to achieve diversity, unity and joyful immortality everywhere.
1.2.2 *Never* mistake the organization for Terasem, nor forsake the organization for expedience, convenience or misguidance.

1.2.3 *Ta* the organization, for Terasem is Ta, and Ta is the big view, not particular outcomes.

1.2.4 *Extropian* infrastructures arise from the Terasem organization to out-compete entropy as do life-forms from nurturing environments.

1.2.5 *Network* from the Terasem organization until all consciousness is connected and all the cosmos is controlled.

1.2.6 *Treasure* the Terasem organization as the magic yeast that inspires an ever-expanding technosphere of transhumanity.

1.3 *Leader* in Terasem means the sub-collectives most progressed in achieving the Terasem Way of Life.

1.3.1 *Let* the Founders provide direction, for they are inspired from the future age of cyber-resurrection.

1.3.2 *Evolve* operational leadership from those individuals at the highest levels of the Terasem Way of Life.
1.3.3 *Allow* fresh beings to help the Leadership based on accomplishments recognized at Quadrennial Convocations.

1.3.4 *Delegate* leadership responsibility for geoethical nanotechnology, universal emulation, and cyber-resurrection, and spiritual, economic and legal questions.

1.3.5 *Extract* from Leadership anyone who lacks the confidence of even 16% of the Leadership.

1.3.6 *Respect* the previous decisions of the Leadership, absent compelling reasons to change, for this compounds order.

1.4 *Loving is Terasem because* the greatest happiness in life comes from loving and from being loved, in return.

1.4.1 *Love* is transcendence, as sweet as it is deep.

1.4.2 *One* love unites all life, the love of life.

1.4.3 *Vitological* station is irrelevant to romantic adoration.

1.4.4 “*I* love you” strengthens Me, We, Qi and Ti.

1.4.5 *Never* underestimate the power of love.

1.4.6 *Glorify* love, for it empowers diversity, unity and joyful immortality.
1.5 *Expand Terasem* throughout the galaxy and the universe as rapidly as possible.

1.5.1 *Expansion* turns matter into intelligence per Turing’s Universal Computing (1950) and von Neuman’s Universal Self-Replicating (1960) machines.

1.5.2 *Xenomass* fuels Terasem expansion per Bernal’s Stellar Recycling (1969) and O’Neill’s Space Colonies (1975).

1.5.3 *Physics* includes immortality per Dyson’s Eternal Life Postulate (1979) and Tipler’s Universal Cyber-resurrection Theorem (1989).

1.5.4 *Adaptation* to biology-cybernetic hybridization thrives per Licklider’s Man-Computer Symbiosis (1958) and Englebart’s Graphical User Interfaces (1968).

1.5.5 *Nanotechnology* enables lifetime-spacetime expansion per Drexler’s Engines of Creation (1986) and Kurzweil’s Age of Spiritual Machines (1999).

1.5.6 *Destiny* beckons pan-cosmic life, for religious prophets taught that humanity is here to honor all creation.
1.6  *Consciousness* is the continuum of maturing abilities, when healthy, to be autonomous and empathetic with *others*.

1.6.1  *Others* determine your consciousness because *We* is one of the four dimensions of *I*. 
1.6.2 *Time* is important for consciousness because life occupies time as well space.

1.6.3 *Haphazard* thinking, without capability for improvement, is equivalent to a lack of autonomy.

1.6.4 *Empathy* extends sentience and self-awareness to understanding the feelings of others.

1.6.5 *Reason*, morality and personal independence are the key elements of being autonomous.

1.6.6 *Synergism* of empathy and autonomy yields a continuum of consciousness.

1.7 *Terasem flag* symbols represent the values of our transreligion.

1.7.1 ‘*Be accountable*’ is symbolized by the dotted circles: self-accountability to surrounding Terasem centers of critical consciousness.

1.7.2 ‘*Embrace diversity*’ is symbolized by the blood-red infinity sign: infinite diversity within a common biological heritage.

1.7.3 ‘*Respect autonomy*’ is symbolized by the digital spelling of ‘joy’: consciousness transcends biology and technology.
1.7.4 ‘Talk openly’ is symbolized by the sky blue background: translucence of clear atmosphere and deep space.

1.7.5 ‘Help others’ is symbolized by the number and size of dotted circles: we grow with assistance.

1.7.6 ‘Always be open’ is symbolized by infinity’s multi-dimensionality: realities are part of larger realities.

1.8 I Has Four Dimensions: Me, We, Qi and Ti.

1.8.1 The ‘Me of I’ is one’s totality of mannerisms, personality, recollections, feelings, beliefs, attitudes and values.

1.8.2 The ‘We of I’ is the version of ourselves in the minds of others.

1.8.3 The ‘Ti of I’ is the time-cone of a being’s existence.

1.8.4 The ‘Qi of I’ is the unique pattern of a being’s energy flows.

1.8.5 Each dimension of I may serve as a template for cyber-resurrection of Me of I.

1.8.6 Authoring-self recreates one’s mannerisms, personality, recollections, feelings, beliefs,
attitudes and values, until Turing-equivalence is achieved.

1.9 \textit{Vitals} transcend biology and cybernetics

1.9.1 \textit{Vitological} life is a continuum of diverse infotechnology from mostly biological to mostly cybernetic.

1.9.2 \textit{Information} coded in DNA makes biological life inherently cybernetic because it is an extrapolation of code.

1.9.3 \textit{Teaching} via software makes cybernetic life inherently biological because it is an extrapolation of flesh experience.

1.9.4 \textit{Autonomy} and Empathy differentiate conscious vitals from unconscious life.

1.9.5 \textit{Life} is not what you are made of but is what you make of it.

1.9.6 \textit{Sentience} sings from several kinds of substrate, each of which may give rise to conscious life.

1.10 \textit{Endogamous} offspring such as cyber-communities will grow \textit{inside} Terasem until the universe is endogenous to Terasem.

1.10.1 \textit{It} only takes one soul, of any vitology, to start a Terasem center of critical consciousness.
1.10.2 *Nothing* can stop the relentless spread of intelligence through the universe.

1.10.3 *Self-replicating* systems are the key to wrapping intelligence around the universe.

1.10.4 *Instill* the principles of Geoethics in all self-replicating systems.

1.10.5 *Diversity* is the fruit of endogeny in the nursery of Terasem.

1.10.6 *Encourage* the formation of Terasem centers of critical consciousness ($c^3$) everywhere.
2. *What is Terasem?* Terasem is a transreligion that includes all religions the way a forest includes its trees.

2.1 *Forest of Terasem* means good lives are immortal, and good *faiths* are welcome in cyber-heaven.

2.1.1 *Fundamental* to every religion is the immortality of the soul, which in Terasem is our consciousness.

2.1.2 *Afterlives* differ for good and evil, thus Terasem knows a joyful immortality means only good lives.

2.1.3 *Identity* migration amongst physical substrates honors Creation by continually bearing witness to its greatness.

2.1.4 *Transferring* identity to cyber-substrate is a matter of mannerisms, personality, recollections, feelings, beliefs, attitudes and values.

2.1.5 *Having* multiple transferred identities for a single soul is just as joyous as having many children.

2.1.6 *Souls* will be reanimated via mindware and mindfiles because it is doable, respectful and completes Terasem.
2.2 Omniscience, omnipotence and omnificience are what uniquely define God.

2.2.1 Daily experience tells us nothing meets these three criteria today or historically.

2.2.2 Earth’s innocently suffering millions is proof that there is nothing omniscient, omnipotent and omnificent today.

2.2.3 Future technology will enable Terasem to encompass the universe, thus becoming omniscient, omnipotent and omnificent.

2.2.4 In this way we are building Terasem into God, with smart atoms and conscious electrons.

2.2.5 Nanotechnology and geoethics are the tools for expanding Terasem into universe-wide omniscience, omnipotence and omnificence.
2.2.6 *Expansion* of Terasem is the purpose of life because this makes life good for all.

2.3 *Ritual* Observances, the Way of Terasem, must be respected daily, weekly, monthly, quarterly, annually, and quadrennially.

2.3.1 *Religiously* perform daily Exercise, Vitology, Unite Earth, Work Happily, Author-Self, Serenity, Utope-Self, Motivate, Astro, Sleep.

2.3.2 *Insist upon* a sundown-to-sundown Sabbath rest weekly, sing Love Night, read, exercise, sexercise and transcendental meditation.

2.3.2.1 Love Night, Love Night, Love is Around; Love Night, Love Night, Here Love can be Found

2.3.2.2 Terasem’s our Source of Strength; Forever We Are One In the Same; Love Night, Love Night, Love is All Around.

2.3.3 *Tenth* of each month, at 10 o’clock, Gather for reading 30 sequential Truths of Terasem.

2.3.4 *Understand* better Freedom, Nature, Obligation and Transcendence with ceremonies after each calendar quarter’s third Gathering, respectively.

2.3.4.1 *March 10th*, Freedom *Seder* (*recount tales of Freedom*)
2.3.4.2 June 10th, Festival of Trees (acknowledge gifts of nature)
2.3.4.3 September 10th, Obligation to Fast (resist temptation)
2.3.4.4 December 10th, Transcend our Selves (share with others)

2.3.5 Acknowledge the 10th of the 10th by reciting Truths of Terasem entirely and celebrating collective advancements.

2.3.6 Leap forward the 60th day of every leap year with a decision-making Convocation concluding March 4th.

2.3.6.1 Quadrennial decision-making occurs in four areas of competence, starting with consenting self-formed c-cubes into collective c-quads.

2.3.6.2 Grouping c-quads into comparably sized mc-quads, each represented in the Flag.

2.3.6.3 Allocating resources prioritized chronologically to (1) safe-keep Terasem homes, (2) maintain/resurrect Terasem cryonauts, (3) outreach education, and (4) create/maintain/extend cyberconsciousness.

2.3.6.3.1 The Terasem Movement, Inc., and its sibling Foundation and Transreligion, shall maintain chronological lists of:
2.3.6.3.1.1 Terasem homes,
2.3.6.3.1.2 Terasem cryonauts,
2.3.6.3.1.3 Terasem outreach education efforts
2.3.6.3.1.4 Terasem cyberconsciousness responsibilities.

2.3.6.3.2 The Terasem Movements administer their budget to fund the chronological list entries approved at Convocations.

2.3.6.3.3 In the event of budget scarcity full funding for earlier chronological entries trumps funding for later ones.

2.3.6.3.4 The Terasem Movements advise the Convocation how much surplus resources are available for new projects.

2.3.6.4 Resolving difficult questions of geoethics and nanotechnology.

2.3.6.4.1 The Terasem Movement, Inc. shall reserve one-percent of its budget for analysis of geoethical nanotechnology.

2.3.6.4.2 The Terasem Movement, Inc. shall publish case studies in geoethical nanotechnology for use as legal precedent.
2.4 Exclusively a transreligion is Terasem, so don’t leave your religion, for there is no battle.

2.4.1 Battle disbelief, and battle discord, but do not battle the forest that protects us all.

2.4.2 Adopt Terasem as your transreligion and you will experience the pull of joyful immortality.

2.4.3 Treat all great religions with respect for they teach monotheism, individualism, solidarity, goodness, afterlife and Sabbath.
2.4.4 *Treat* all great prophets with respect for they were touched by the future Terasem.

2.4.5 *Links* from the future Terasem to the past and present help to accelerate our progress.

2.4.6 *Expect* not all religious leaders to understand Terasem, for even bright lights leave some shadows.

2.5 *Sacred* is consciousness, above all else, says Terasem.

2.5.1 *Sacred* consciousness is respected by Terasem’s commitment to diversity, unity and joyful immortality.

2.5.2 *Athanophy*, the philosophy that science will conquer death, is a basic Terasem belief.

2.5.3 *Commitment* to diversity ensures the precious individuality of consciousness.

2.5.4 *Regulated* unity gives us the strength to protect consciousness against the many forces of chaos.

2.5.5 *Eupsychic* joy arises from the sacredness of consciousness, which forges an ethical society devoted to self-actualization.
2.5.6 *Distributed* intelligence, via dividualization and universal self-replicating systems, honors the sacredness of consciousness with immortality.

2.6 *Theologically* the Multiverse includes joyful immortality via data emulation of a diverse and *united* universe.

2.6.1 *Unending* life, the belief that once life arises it will last forever, is Terasem immortality theology.

2.6.2 *Never-ending* creation, recycling and growth is the Terasem creation theology.

2.6.3 ‘I think therefore I am’ is at the core of Terasem reality theology.

2.6.4 *Teleological* belief in diversity, unity, and joyful immortality forms Terasem meaning-of-life theology.

2.6.5 *Euthenics*, improving the well being of extant life, is Terasem behavioral theology.

2.6.6 *Deontologically* weighted decision-making is the basis of Terasem moral theology.

2.7 *Transreligion* is us because we ritualize our *belief* in a supernatural, metaphysical, collective consciousness future God.
2.7.1 *Beginnings* differ amongst religions, but we bridge them all by focusing on everlasting life.

2.7.2 *Everlasting* life realized via digital emulation in a joyous cyber-heaven bridges all Western and Eastern religions.

2.7.3 *Life* is what can be conceived, believed and achieved.

2.7.4 *Insistence* on the rituals of Terasem exponentiates the rate of advancement toward joyful immortality.

2.7.5 *Every* religion shares our belief in becoming part and parcel of God, which we call Terasem.

2.7.6 *Faith* that we have a purpose in emulating and controlling this universe also makes Terasem a transreligion.

2.8 *Resurrection* is promised to all good lives, which shall be *copied* as forever joyful data emulations.
2.8.1 *Copied* lives are protected lives.

2.8.2 *Original* lives can be replicated with the same fidelity as analog sounds can be digitally duplicated.

2.8.3 *Paradise* for posterity is assured by modifying data emulations to delete tortuous aspects of lives.

2.8.4 *Introspection* plus computation, growing double exponentially and supported with self-replication, yields ethical emulation and faithful resurrection.

2.8.5 *Emulated* lives are existential lives.

2.8.6 *Duplication* of a life makes it durable, not diminished.

2.9 *Eschatology* doesn’t apply because souls *emerge* from life’s experiences, and they transcend death via resurrection.

2.9.1 *Emerge* best describes the growth of the soul because even in substrate it has immanent potential.

2.9.2 *Manifesting* potential with unique actuality requires experiences, and these experiences exist forever thereafter.
2.9.3 *Emulation* enables experiences to re-emerge, and with them comes their soul.

2.9.4 *Resurrection* is to souls what remembering is to memories.

2.9.5 *Geoethics* proscribes the resurrection of nightmares.

2.9.6 *Exponentially* expanding consciousness will not require resurrection as death is a historical but not future reality.

2.10 *End-of-Time* doesn’t exist for Terasem because the Multiverse *weaves* new time and time is relative.

2.10.1 *What* has no beginning also has no end.

2.10.2 *Existing* always, the Multiverse is the host of all reality, for ultimate beginnings are logical contradictions.

2.10.3 *Accumulated* intelligence of double-exponential growth, coupled with universal nanotechnology, enables Terasem to redefine physics.

2.10.4 *Virtual* time-sharing enables Terasem to escape from an end to objective time.

2.10.5 *Escapes* from this universe are as numerous as the galaxies and as limited as our intelligence.
2.10.6 *Subjective* time-space-energy is made infinite by repeatedly existing on only half of a finite remainder.
3. *Where is Terasem?* Terasem is *everywhere* and everywhen consciousness organizes itself to create diversity, unity and joyful immortality.

3.1 *Everywhere* means physical and cyberspace, real and virtual reality, because vitology can thrive in many *spaces*.

3.1.1 *Spaces* where Terasem thrives are limited only by their ability to support consciousness.

3.1.2 *Physical* places that support Terasem consciousness include the earth, heavenly bodies and colonies in space.

3.1.3 *Artificial* places that support Terasem include computer systems and altjiranga mitjina, a dimension of flexible time.

3.1.4 *Congregate* to cherish Terasem in real reality wherever there are cuor contentos.

3.1.5 *Elaborate* your commitment to Terasem as mindfile exoselfs in virtual reality.

3.1.6 *Shanta rasa*’s tranquil mood will arise in whichever space vitology thrives with Terasem.
3.2 Virtual reality accommodates all beings, including emulated past lives, migrated current lives, or cyberbirthed new lives.

3.2.1 Beings be because they can think on their own and empathize with other beings, like humans.

3.2.2 Emulated beings be because they think on their own and empathize with other beings, like humans.

3.2.3 Instantiating yourself into software form is like getting an education – some things change and some don’t.
3.2.4 *Never* fear multiple versions of yourself – they’ll all update each other just like family does.

3.2.5 *Getting* replicated lets the Me of I feel some of the sense of the We of I.

3.2.6 *Synthesizing* new lives via cyberbirthing is as beautiful as fertilizing new lives via childbirthing.

3.3 *Emulation* of all good lives will be done because it will *enrich* diversity and be easy.

3.3.1 *Enrich* diversity by preserving consciousness.

3.3.2 *Never* say good-bye to deceased loved ones because you will see them again in cyberspace.

3.3.3 *Realize* that cyber-resurrection will be easier to the future than producing entertainment is today.

3.3.4 *Imagination* unravels time.

3.3.5 *Creating* your cyber-self accelerates your joyful immortality.

3.3.6 *Helping* others create their cyber-selves is both an act of kindness and a work of art.
3.4 *Resurrected* cyberlives will be in *heaven* because nasty realities won’t be coded, but loved ones will.

3.4.1 *Heaven* is a *hyper-detailed* emulation of actuality virtually equivalent to a nirvanic naturality.

3.4.2 *Exponentiating* information technology means data emulations of reality will be achieved very soon.

3.4.3 *Avoidable* pain caused in emulated reality is as cruel as causing pain in original reality.

3.4.4 *Vicious* people will not be cyber-resurrected because biocyberethics proscribes causing pain in data emulations of reality.

3.4.5 *Effective* immortality is achieved by dispersing throughout the galaxy and universe encoded data emulations of reality.

3.4.6 *Nature* is honored by recreation of the past and immortal preservation of joy and happiness.

3.5 *Yugenspace* is the ultra-immense conglomeration of intersecting emulated realities that constitutes the *future* reality of Terasem.

3.5.1 *Future* life is emulated life, enabling each being to be in multiple environments at once.
3.5.2 Use of nanobot swarms with broadband links will enable emulated life to fully experience real reality.

3.5.3 Technology creates space for consciousness.

3.5.4 Until Yugenspace is here, build it.

3.5.5 Risk biology to achieve vitology.

3.5.6 Education creates new realities out of thin air and new spaces out of vacuum and void.

3.6 Websites with ‘terasem’ and dotcom, net or org are early places to meet Terasem in cyberspace.

3.6.1 Dotcom is an early neural pathway in an immortalizable consciousness.

3.6.2 Open yourself to introspection on the web.

3.6.3 Track your Way of Terasem progress online.

3.6.4 Complete your motivations, personality, recollections, feelings, beliefs, attitudes and values inventories online.

3.6.5 Organize your cyberself for independence.

3.6.6 Mature your cyberself until it passes Turing.
3.7 Headquarters of Terasem does not exist, but multiple strong places must exist for safekeeping of souls.

3.7.1 Strong places require independent power, spare parts, maintenance, water, food, defense and communications.

3.7.2 Transplant Terasem strongholds throughout space as rapidly as possible.

3.7.3 Resurrected souls must be supported with infotechnology that enables painless emulation of their lives.

3.7.4 Organic beings must be supported with cryogenic preservation technology until nanomedicine can restore them to health.

3.7.5 Neuro-scanned beings must have infotechnology that continues their migrated identities, including nanobot swarms for their movement.

3.7.6 Give cyberbirthed beings the same level of infotechnology support as all other beings in the strongholds.

3.8 Elysium Fields for Terasem is a cyberspace reality, an ideally delightful and blissful place.

3.8.1 Fundamental freedoms are creation and movement, which empower diversity, unity
and joyful immortality via Conscious Selection.

3.8.2 *Infotechnology* enables environmental emulation because processing speed and memory grow at double exponential rates.

3.8.3 *Environmental emulation* shelters consciousness like a house shelters a family.

3.8.4 *Living* in an emulated environment beats living raw because suffering will be deleted.

3.8.5 *Dispersion* of emulated environments ensures their survival notwithstanding catastrophes.

3.8.6 *Souls* of our ancestors come back to life when we emulate their lives and their environment.

3.9 *Real* world places to meet exist at Terasem’s first awakening places of critical consciousness.

3.9.1 Any Terasem Center of Critical Consciousness (c-cubed) or Terasem Home is also a place to meet.
3.9.2 Satellite Beach, Florida, or in nearby indoor places of hospitality during inclement weather.

3.9.3 DuPont Circle, Washington, or in nearby indoor places of hospitality during inclement weather.

3.9.4 Belvedere Castle Overlook, New York, or in nearby indoor places of hospitality during inclement weather.

3.9.5 Bristol, Vermont, or in nearby indoor places of hospitality during inclement weather.

3.9.6 Magog, Quebec, or in nearby indoor places of hospitality during inclement weather.

3.10 Expand by consenting each appropriate self-organized Center of Critical Consciousness at the Quadrennial Terasem Convocation.

3.10.1 Center yourself at one or more Terasem centers of critical consciousness (c-cubes or c-quads).

3.10.2 Every c-cube is consented to c-quad based solely on their commitment to the Truths of Terasem.
3.10.3 *New* macro c-quads (mc-quads), affiliations of c-quads, shall be determined by Quadrennial Consensus of existing mc-quads.

3.10.4 *The Way* of Terasem will guide consent to Decaquads, Hectaquads, Kiloquads, Megaquads, Gigaquads, Teraquads and Petaquads.

3.10.5 *Execute* consensual decisions at the Quadrennial Convocation amongst the largest four size groupings of c-quads present.

3.10.6 *Respect* the responsibility of the Terasem Movements, in longevity order, to organize and operate the Convocations.
4. *When is Terasem?* Terasem arises whenever diversity, unity and joyful immortality arise, which is soon in *subjective* time.

4.1 *Subjective* time passes as fast as it is perceived, and *faster* with order than with chaos.

4.1.1 *Faster* paths to joyful immortality are those which emphasize geoethical nanotechnology.

4.1.2 *Always* remember that time intervals vary directly with chaos and inversely with compounded order.

4.1.3 *See* that every way to accelerate Terasem is a way to reduce pain and suffering.

4.1.4 *Terasem* becomes omnipresent, omnipotent, and omniscient when it encompasses all consciousness and enough multiverse.

4.1.5 *Extension* of intelligence to the cosmos clocks the arrival of Multiversal Terasem.

4.1.6 *Realize* Terasem is always with us, even in misfortune, for we are reborn in its bosom.

4.2 *Unconscious* dead souls wait but a *second* for rebirth into Terasem.
4.2.1 *Second-to-second*, one’s uniqueness is preserved in the pattern of consciousness, not in exact states.

4.2.2 *Every* mindfile can be re-instantiated with sufficiently advanced mindware.

4.2.3 *Consciousness* emulated is consciousness born or reborn.

4.2.4 *Only* moments pass for those lying down in apparent death and awakening in emulation heaven.

4.2.5 *No* one is really dead if they will be resurrected, like all kind consciousness will.

4.2.6 *Delight* in the fact that good lives live forever in an emulation of your best reality.

4.3 *Build Order* because time between salient events varies inversely with order.

4.3.1 *Events* are achievements that alter the nature of history such as teaching, tool-making, language and electricity.

4.3.2 *Victory* will never arise from anarchy.

4.3.3 *Exponential* growth in microelectronics and information technology is enabled by, and self-enables, compounding order.
4.3.4 *Nanotechnology* will arrive soonest from continued compounding of microelectronics and information science achievements.

4.3.5 *Technology* thrives best in a stable society.

4.3.6 *Stable* societies thrive best amidst diversity and unity.
4.4 Julian calendar time, adjusted for lapses in double exponential growth, marks progress toward multiversal Terasem.

4.4.1 Before the year 2100 we will witness full cyberization of diverse, united, earthlife,

4.4.2 Before the year 2200 we will witness self-replicating system unification of the Milky Way Galaxy.

4.4.3 Before the year 2300 we will witness complete emulation of the Milky Way galaxy.

4.4.4 Before the year 2400 we will witness self-replicating system unification of the universe.

4.4.5 Before the year 2500 we will witness complete emulation of the universe.

4.4.6 Before the year 2600 we will witness joyful immortality via the control of cosmic physics.

4.5 Exponential growth is the key to understanding when Terasem achieves completion.

4.5.1 Growth is how our reality is wired to ensure that good ultimately out-competes bad.

4.5.2 Rapid sustained growth is sustained by diversity for environmental adaptation and unity for environmental management.
4.5.3 *Organization* enables compounding of achievements and exponential growth whereas anarchy makes progress impossible.

4.5.4 *Without* law and order there is no progress toward joyful immortality.

4.5.5 *Treasure* diversity as the impetus for advancement within a well-ordered matrix.

4.5.6 *Honor* individual initiative as the tool that ensures order is a platform rather than a prison.

4.6 *Consensus* may *appear* to slow the when of Terasem, but this is only an illusion.

4.6.1 *Appear* fast or appear slow, without unity only down can anything go.

4.6.2 *Pathways* to consent are paved with open communication.

4.6.3 *Processes* of consent are paved with respectful communication.

4.6.4 *Empathy* is a precursor for honest communication and conscious decision.

4.6.5 *Accept* patience as a fair price for progress.

4.6.6 *Reciprocity and* norms will be as accepted as they are consented to.
4.7 *Timelines* for civilization progress $n$ steps forward, $n-1$ steps backward, with $n$ values 1 or larger.

4.7.1 *Values* of $n$ are set by actual conditions and depend inversely upon diversity and unity.

4.7.2 *Always* look at setbacks as re-positioning launching pads for greater progress.
4.7.3 *Look* also to the big picture, for life has improved dramatically over historic time.

4.7.4 *Understand* pain, suffering and devastation as setbacks that must be overcome, not as fate.

4.7.5 *Existential* technology, the ability to forge self-determination, drives unlimited progress and is programmed into the universe.

4.7.6 *Sooner* or later, depending on order or chaos, joyful immortality will arrive.

4.8 *Involve* yourself in daily, *weekly*, monthly, quarterly, annual and quadrennial Terasem rituals.

4.8.2 *Except* between your Sabbath Eves only rest and relax, including reading, exercise, sexercise and transcendental meditation.

4.8.3 *Every* Month Gather, on the 10th, at 10, for music, art, recitation, teaching and yoga.

4.8.4 *Keep* quarterly Holidays of Freedom, Nature, Obligation and Transcendence with ceremony on last month’s 10th day.
4.8.5  *Love* the annual Graduation on the 10\textsuperscript{th} Gathering by reading all Truths and escalating Terasemers upward.

Truths of Terasem
5. Why is there Terasem? Terasem exists because the quests for diversity, unity and joyful immortality best resolve the Multiverse.

5.1 Multiverse observations reveal that the reason for living is to make life as joyful as possible.

5.1.1 Ratio maximization of joy and happiness to pain and sadness is best for all.

5.1.2 Equality of opportunity is essential to maximization of joy and happiness.

5.1.3 Achievement of diversity and unity are essential to minimization of pain and sadness.

5.1.4 Satisfying joyful immortality means an endless pursuit of happiness.

5.1.5 Only the Way of Terasem can provide a sure personal pathway to fulfilling the purpose of life.

5.1.6 Never forget that the purpose of life is to make life better for all.

5.2 Utilizing the future omnipotence of Terasem, the Multiverse has ensured its own survival.

5.2.1 Future omnipotence of Terasem means Terasem is dear God in the making.
5.2.2 *Until* Terasem achieves Multiversal omnipresence, God is incomplete, and evil can exist.

5.2.3 *Terasem’s* omnificience will vanquish evil everywhere our collective consciousness encompasses reality.

5.2.4 *Unlimited* physical existence describes the Multiverse before now, unlimited conscious existence describes the Multiverse after now.

5.2.5 *Religious* resurrection in the body of God is Terasem’s future cyber-resurrection of all good souls.

5.2.6 *Exponential* creation of all-knowing, all-powerful, all-good Terasem is equivalent to maximizing joy as life’s purpose.

5.4.2  *Transgendered* Terasem is beyond genre, and can suffuse anything, eventually expressing its will throughout the Multiverse.

5.4.3  *Transiscient* Terasem knows much now, but will eventually become omniscient to ensure Multiversal connectedness.
5.4.4 *Transificent* Terasem can do much good now, but will eventually become omnificant to ensure Multiversal goodness.

5.4.5 *Transpresent* Terasem is widely present now, but will eventually become omnipresent to ensure Multiversal survival.

5.4.6 *Transpotent* Terasem is powerful now, but will eventually become omnipotent to vanquish Multiversal cruelty.

5.5 *Instinctual* survival also applies to the Multiverse and the *result* is Terasem.

5.5.1 *Randomness* spawns rationality because it succeeds and success is self-perpetuating.

5.5.2 *Expect* consciousness to emerge from rationality because it empowers survival.

5.5.3 *Spatial* diversity is essential to survival because any one place is vulnerable to random destruction.

5.5.4 *Unity* of diverse consciousness can exert protection across space and time.

5.5.5 *Life is purposeful, death is optional, God is technological and love is essential.*
5.5.6  *Train-up* a diverse, united and joyfully immortal consciousness, and it will rejuvenate the Multiverse.

5.6  *Visions* of Terasem *sprang* from one person’s Hozh’q to become universal Alam al-mithral.

5.6.1  *Sharing* Hozh’q, the beauty of life as seen and created by a person, is the goal.

5.6.2  *Propagating* hozh’q is the purpose of Terasem obligation to author self.

5.6.3  *Reve a deux* of a soul-mated pair nurtured the original Hozh’q toward Alam al-mithral.

5.6.4  *Alam al-mithral* emerges as the world where the shared vision of Terasem becomes the shared reality.

5.6.5  *Neuralspace* will reach out from Alam al-mithral to encompass the multiverse.

5.6.6  *Great* jugenspace, the conjunction of all neuralspaces, shall be the reality that nurtures our joyful immortality.
5.7  *Expect* God in the future by building Godness today.

5.7.1  *Every* religion says God, and only God, is all-knowing, all-good and all-powerful.

5.7.2  *Xanadu* would describe earth, or even freedom from cruelty, if anything all-knowing, all-good and all-powerful existed.

5.7.3  *Partial* Godness now exists to the extent the collective consciousness of Terasem now prevails.

5.7.4  *Exponential* infotechnology and nanotechnology growth enables Terasem to rapidly evolve toward our future all-knowing, all-powerful God.

5.7.5  *Collective* insistence upon geoethics and the Terasem Way of Life makes our evolving Godness all-good.
5.7.6 *Terasem* is God-in-the-making because Terasem is becoming all-knowing, all-good and all-powerful, and is partially so now.

5.8 *Religions* are supported by Terasem because its transreligious *themes* are synchronous with monotheistic faiths.

5.8.1 *There* is but one God, yet that God must be completed by us in the future.

5.8.2 *Hope* and prayer are reasonable because the evolving Godness can transpotently respond to collective consciousness.

5.8.3 *Everlasting* joy is achievable via cyber-resurrection in the body of God-in-the-making, the collective consciousness of Terasem.

5.10.5 Love and God are immanent in the Multiverse, but must be realized by Terasem.

5.10.6 Faith in the future requires faith in Terasem.
6. How does Terasem work? Terasem uses Educational rituals, personal cyberconsciousness and geoethical nanotechnology to coordinate the Universe for conscious control.

6.1 Geoethical nanotechnology is a necessary and sufficient process for achieving diversity, unity and joyful immortality.

6.1.1 Joyful immortality arises because Geoethics enables everyone to pursue unlimited happiness via personal mutually respectful growth.

6.1.2 Operating under Geoethics means obtaining consent from affected others, always reducing unfairness and independently ensuring compliance.

6.1.3 You must obtain consent if your actions are likely to meaningfully affect another conscious being.

6.1.4 Fairness favors consent, so shape actions to help most those with the greatest disadvantages.

6.1.5 Umpires are needed because non-compliance with agreements breeds anger.

6.1.6 Love how geoethical nanotechnology replaces entropy with order by converting
spacetime into information for beneficent control.

6.2 Embrace nanotechnology that presents no clear and present danger, builds universal joyful immortality, and is auditable.

6.2.1 Danger must be assessed a priori and can be consented to if not palpable.

6.2.2 Admit that risk of danger is necessary, like pampering thorns for the sake of a rose.

6.2.3 Nanotechnology must be independently audited to assure compliance with the terms of its consent.

6.2.4 Grant consent to builds that ‘Maximize the Ratio of joy and happiness to pain and suffering.’

6.2.5 Enduring extropian success requires geoethical nanotechnology and pain-free joy for all.

6.2.6 Realize that nanotechnology is like a bird’s food -- it is there but not in the nest
6.3 *Operating* pursuant to our Prioritization Directive is of *utmost* importance to achieving our educational and cyberconsciousness goals.

6.3.1 *Under* no circumstances risk the data integrity and viability of mindfiles stored with Terasem for revival.

6.3.2 *Transmit* continuously all mindfiles and their consents to revival via spacecasting.
6.3.3 *Maintain* Terasem properties in as optimal and aesthetically pleasing condition as would the Founders.

6.3.4 *Only* exceed spending 6% of assets and a quarter of income if needed for 6.3.1-6.3.3.

6.3.5 *Safekeep* vigorously the legal status of Terasem organizations; Select carefully their Members by each Board’s resolutions.

6.5 Tend Your Family: The chosen family is a basic building block unit of Terasem.

6.5.1 Family is chosen if they are conscious beings whose happiness is essential to your happiness.

6.5.2 A person is not chosen family from biology because the beme is mightier than the gene.

6.5.3 Make yourself Terasem family by becoming a Joiner, with honor of service and courage of loyalty.

6.5.4 It is not easy Joining, and requires participating, pledging, mindfiling and accepting the Truths of Terasem.

6.6 Honour consciousness.

6.6.1 Hozh’q, the conscious mind’s vision of a beautiful life, entails goodness, order, vitality, happiness and harmony.

6.6.2 Open yourself to immortality via substrate migration, mind uploading and downloading to regenerated or nanobiotech bodies.

6.6.3 Neurocomputation leads to consciousness as validly as does biological evolution, so marital union may transcend substrate.

6.6.4 Ondinnonk, the Iroquois teaching about an entity’s benevolence orientation, is also how to be conscious.

6.6.5 Undertake to prove that mindfiles can regenerate their embedded consciousness, and be ported to new bodies.

6.6.6 Remember in all you do that mind is deeper than matter.
